STUNG.

One day I met a maiden fair,
With golden locks beyond compare;
I wrote an ode upon her hair,
Enthralled quite by her tresses rare,
I lost my heart, but didn't care,
I called one fatal morning where
She lived, to lay my secret bare,
All unannounced by trumpet's blare.
To go again I'd never dare,
For when I met her on the stair,
Her charming tresses were not there;
She'd left them hanging on a chair, some-
where.

JUDGE GREGORY

Of Louisville Suggests that Shot-
guns Be Used on Care-
less Autoists

At Louisville, Judge Gregory of the Crimi-
nal Court, suggested the use of shotguns by
the police of Louisville to put a stop to
flagrant violations of the ordinance against
automobile speeding, if all other methods fail.
In most emphatic terms Judge Gregory de-
nounced persons who recklessly drive auto-
mobiles through the streets, and declared that
their behavior has the effect of driving people
in danger into a state of anarchy.

Judge Gregory's statements were made fol-
lowing the hearing of the appeal case of the
city against the Bullock Lumber Company, in
which a fine of \$25 was imposed in the City
Court by Judge Boldrick.

THE COURT'S OPINION

If the Police Department, said Judge
Gregory, cannot enforce the law with the use
of its own automobiles and speedometers, the city
ought to have enough policemen detailed at
street corners to enforce the law. He then
suggested that if the violators of the law
could not be stopped in any other way, they
could be stopped with a shotgun.

Judge Gregory declared that a man who
drives an automobile through the streets of
Louisville at a rate of speed like that
described in the case at bar, ought to be sent
to the penitentiary. Some autoists take the
law into their own hands, he said.

was soon extinguished by the inmates. No
one hurt and damage about \$50. The house
belongs to Mr. Omar Dodson. The Fire De-
partment responded to the call, but their ser-
vices were not needed.

Linen Sheeting at 98c to \$1.4 a yard or Pillow Case Linen
at 50c to \$1 a yard but come here to see what real qual-
ity is represented by every price we quote.

Irish Linens

There is no particular reason why Irish Linens
should have the preference. There are a half dozen
other linen producing sources that are just as good. Yet
there is something sturdy and serviceable about Irish
Linens that make people want ever-increasing quantities
of them year after year. Irish Table Linen by the yard

HEED THE WARNING

MANY MAYSVILLE PEOPLE HAVE DONE SO

When the kidneys are sick they give unmistakable warnings that should not be ignored. By examining the urine and treating the kidneys upon the first sign of disorder, many days of suffering may be saved. Sick kidneys expect a dark, ill-smelling urine, full of "brick dust" sediment and painful in passage. Sluggish kidneys often cause a dull pain in the small of the back, headaches, dizzy spells, tired, languid feelings and rheumatic twinges. Doan's Kidney Pills are for the kidneys only.

Maysville people recommend Doan's Kidney Pills.

Mrs. John E. Burns of Maysville, Ky., says: "I value Doan's Kidney Pills just as highly today as when I gave a statement for publication in their praise some years ago. I was subject to attacks of kidney trouble and at times the pain in my back was so acute that I was confined to my bed for days. The prompt relief I received from Doan's Kidney Pills, procured at J. J. Wood & Son's Drugstore, was very gratifying, and I have had no serious return attack of kidney trouble. On some occasions, I have felt a slight backache, but a few doses of this valuable remedy have never failed to benefit me."

RETREATING TO LITTLE ROCK

Details of Battle of Saline River Described by Old Veteran, Who Was Participant.

To be a gunsmith and the proprietor of a shooting gallery seems to be natural for a veteran of the civil war in tinkering with the mechanism of rifles and revolvers and in smelling the smoke of cartridges John D. Credebaugh keeps a familiarity with his youth. In the war he was a soldier of the 40th Iowa infantry regiment. Afterward he became a sharpshooter with Buffalo Bill, Wild Bill and other persons of similar profession. He retains the appearance of the frontiersman. He confesses to the age of 65 though a casual guesser would not approach that figure by twenty years. One of the stories that he tells in his home and place of business in Chicago is of the battle of Saline River, Arkansas, April 30, 1864, and is as follows:

"Gen. Steele's expedition was retreating before the advance of the confederate army that had whipped Gen. Banks. We had done our part in occupying the Arkansas country down to Camden, but the Red river expedition in northern Louisiana was broken up by Price and Kirby Smith before we could join Gen. Banks at Shreveport. The confederate army drove us out of our position and back toward Little Rock.

"We had been on the march several days from Camden when the enemy caught up with us near the Saline river, which we had to cross. The crossing was going to be difficult because it was in the spring and the river was flooded. Our crossing, the only one near the place we had come to, was in a sharp bend of the river which we were approaching from the concave side. We came down the road that led to the ferry, and at a cross road a rebel battery opened fire on us. Beyond, between us and the river there was a rise of ground and most of the army kept on and passed this rise, leaving the rear guard to hold back the attack. The 40th Iowa regiment was in the rear guard and we helped prevent the advance of the enemy. We fought until nightfall.

"When the day's fighting was over we withdrew behind the rise of ground. The slope went down to the bottom land of the river and it was all wet. I went to sleep sitting against a tree trunk and in the morning I awoke in cold water up to my breast. It was still early in the year the morning of April 30. All the bottom had been flooded in the night and the army had to go through the water to the pontoon bridge that was laid across the channel of the river.

"While the crossing was going on the rear guard had more fighting to do. We went back to the rise of ground and took our position there, not going down to the crossroads. The river bent behind us and came around to the left and right in a big bow, so that our line could extend from water to water and prevent the rebels from getting to the ferry. By that time the rebels were lying five and six deep in three lines on the slope of the hill.

"There was one battery that we couldn't take for a long time, though

"We Fought Until Nightfall."

we charged it repeatedly. At last we were successful and the guns were ours. I went to the caissons and in one of them I found a big piece of corn pone and I divided it. That was the sweetest bread I ever tasted. It made the best meal I had in two months. It was the first food I had had in four days.

"Finally the enemy retired. They had not sent their full strength against us, anyway. Everybody got across the bridge, and then the pontoons were destroyed. We had refuge with us, and I remember that some women in a house near the river waded through the water to cross over with the army. There were many wagons we could not take along and so the spokes were knocked out of the wheels.

\$22,000,000 Pension Bill

WASHINGTON, February 12th.—The Sherwood so-called "dollar-a-day" Pension bill was rejected today by the Senate Committee on Pensions and another measure which would involve an annual expenditure of \$22,000,000, proposed as a substitute by Senator Smoot of Utah, was adopted. Senators Brown (Neb.) and Curtis (Kansas) gave notice that in the Senate they would press the Sherwood Bill as a substitute for the Smoot Bill.

The Gas Bills

Winchester Democrat

The papers at Mt. Sterling and Lexington say that many of the patrons of the Natural Gas Co., have been kicking on account of the bills rendered. There is but little or nothing of the sort here. The gas is so much better and cheaper than coal that the bill is gladly paid. The weather during January was so abnormally cold, that bigger bills were to have been expected and if these bills had not been paid to the Gas Company, larger ones would have been due the coal man.

Former Maysville Man Has Big Task—After Ten Million Loan

Another "Man From Maysville" is facing a big proposition:

This gentleman is William Burgess Mathews, a native of this city, son of W. B. Mathews, Sr., and brother of Postmaster Clarence Mathews of Maysville.

Mr. Mathews married Miss Sue Hayes of this city, a sister of Mrs. J. Foster Barbour and the Misses Hayes, and many years ago they located in Los Angeles, Cal., where Mr. Mathews has won honor and wealth by his force and ability as a legal light.

The Los Angeles Times of February 3d has this to say of Mr. Mathews and his task of borrowing \$10,000,000 for his adopted city:

"Upon one man the officials of Los Angeles are depending for the financing of the aqueduct, power and harbor projects, during this emergency when financing either or all is regarded as the most difficult task ever committed to a Los Angeles official.

"William Burgess Mathews, aqueduct counsel and former City Attorney, is the solitary representative of Los Angeles in its quest for \$10,000,000 for its three bond issues. He is the minister plenipotentiary and envoy extraordinary at the court of Wall street and his diplomatic mission is one of war, not peace. In New York for three weeks he has been seeking means to meet the hostility of the syndicate that originally financed the aqueduct, but refused to take further bond issues last month and, meeting it, he is forming a new financial alliance for the city.

"If he fails at the money mart of the nation, then the officials must find a new way to keep the aqueduct work going until it is done—and the goal is next Christmas Day."

The Times also contained a double column picture of Attorney Mathews and taken altogether it shows that this ex-Maysville gentleman has become a leader in the "Magic City" where they do things.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running nose, imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

FIGHT COMIC SUPPLEMENTS

New Orleans Club Women Want Sunday Papers to Use Artistic Illustrations

The Era Club of New Orleans, the largest women's club in the South, has launched a crusade against the Sunday newspaper colored comic supplements. Following a spirited debate, the club recently appointed a committee to call upon the local newspapers, two of which print comic supplements, and urge that they abolish these features.

The club is to urge, instead, the use of real art supplement, either copies of famous paintings or photographs of places and things that will be educative. It is asserted that the comics often are offensive, that many of them teach bad language to children, that they are inartistic, and teach wrong ideas of life.

4,000,000 FOOT GAS GUSHER

Near Salyersville — \$75,000,000 Corporation Formed

The oil and gas company developing on the Baring Spring fork, 4 miles from Salyersville, has struck two gas wells, one of which the experts have pronounced a 4,000,000 foot well.

The Central Oil & Gas Combine has filed articles of incorporation. The capital stock of this company is \$75,000,000 and its holdings are nearly 40,000 acres of splendid oil and gas territory, several thousand acres of mineral lands and a substantial interest in the smaller concerns, with holdings around the scene of development.

The incorporation of this company, following the striking of gas and oil promises great development in that section, which now has shown both oil and gas in paying quantities.

You and your friends are invited to attend and partake of the fine things prepared in the

Caloric Fireless Cook Stove

You will be amazed at the seemingly impossible things it does. It bakes and roasts food in its raw state without first partially cooking it on an ordinary stove or reheating it before serving, as well as steams, stews and boils. The "Caloric" saves fully 75% in fuel alone and nearly all the time and work and all the bother. It requires no attention after the food is placed into it. There is no danger of burning or of food being overdone. The "Caloric" will pay for itself many times over. A ter using it you would not part with it for many times its cost. Come to our store on the date mentioned below and you will learn how to reduce your meat and grocery bills.

Relieves Backache Instantly

Sloan's Liniment is a great
remedy for backache. It
penetrates and relieves
the pain instantly—no rub-
bing necessary—just lay
it on lightly.

Here's Proof.

"I had my back hurt in the Boer War
and in San Francisco two years ago I
was hit by a street car in the same place.
I tried all kinds of cures without suc-
cess. Two weeks ago I saw your liniment
in a drug store and got a bottle to
try. The first application caused instant
relief, and now except for a little stiff-
ness, I am almost well."

There may be a way to make your daily life more comfortable.

You must keep on "sawing wood" for the family, you know, but when the vital
forces recede a bit and you join the "cadaverous" army, look sharp to your food and
drink. Remember this fact that one wide-spread cause of a brain worker's downfall
into nervous prostration and a variety of disorders is

Coffee and Tea

The gage marks 9.2 and falling.

Only one foot of water is registered on the
gage at Pittsburgh:

The Queen City is to leave Pittsburgh for
New Orleans on the 24th, if conditions are
favorable.

Boats and barges at the mouth of the Kan-
awha, it is said, will be in great danger when
the ice passes out of that stream. One
Kanawha gorge broke Sunday night, but
stopped again.

It is said the Queen City will attempt to
float down to Cincinnati and from there on
under light headway to fulfill her Mardi Gras
trip. This may be possible, provided no
gorges form before she starts.

There is more than 2,000 bushels of coal in
the Ohio at the mouth of the Kanawha, and
more tied up along the river at different
points. With reports of a gorge forming
between here and Pittsburgh, snow in the
mountains and vast quantities of ice in the
streams tributary to the Ohio it is said that
there is danger of a stupendous amount of
damage being done unless it thaws gradually.
